EFFECTIVE TREATMENT FOR SWEATING

Many situations can make you sweat ~ exercising, hot weather, stressful situations. Sweating is a natural and healthy body reaction but sometimes the mechanisms behind sweating can go wrong and result in excessive sweating - known as hyperhidrosis. It can be an embarrassing condition and can have a negative impact on one's social and professional life. Common areas affected are underarms, face, palms, and soles of feet. Two products that

we are compounding are glycopyrrolate 1mg capsules and 1% topical cream. The capsule is recommended for people that experience sweating in more than one area, while the cream is used locally in one problematic area. These compounds may be purchased from the pharmacy without a prescription. Signs and symptoms generally improve in about two weeks, with only mild side-effects experienced. Talk to us to find out more.

Back to School . . .

means an increase the number of lice breakouts. An all-natural treatment is made in our compounding lab ~ a mixture of essential oils (ylang, anise and coconut oil). This lice treatment is 98% effective in removing lice and their eggs. And it is safe and chemical free; leaving hair soft and manageable. The big advantage is that lice are not resistant to these oils so one treatment should be enough!

NEW Over-the-Counter Hemorrhoid Treatment

The **Rectal Rocket** is a unique suppository used for the treatment of hemorrhoids. This product is made in our compounding lab, and may be purchased without a physician's prescription. It contains hydrocortisone to decrease swelling, burning and itching from hemorrhoids, as well as lidocaine to lessen pain. The advantage of the Rectal Rocket over other commercially available suppositories is that most hemorrhoids have been cured after only two applications with this product. The Rectal Rocket's design is very different from that of other suppositories ~ it has a contoured front and a flared bottom that helps keep it in place for 4-6 hours. This product is designed to be used only at bedtime.

The Medicine Shoppe
100% Pure Pharmacy™

We are a registered compounding pharmacy with the Professional Compounding Centers of America (PCCA). Our team of dedicated compounding pharmacists, Mike Duffy, Carla Hebert, Karen Reeves, and Greg MacFarlane have received specialized training so we can better meet your unique health needs.
